Evergreen Park Building Department

9418 S. KEDZIE AVENUE
EVERGREEN PARK, IL. 60805 - 2386
TELEPHONE: (708) 229-3335 FAX: (708) 229-3336

GARAGE PERMIT REQUIREMENTS

For all demolitions of existing garages:

1. A Cook County EPA permit must be obtained and submitted with all applications.
2. A Rodent Control Certification must be submitted which shows "Baited" or "No Activity" listed on the certificate.
3. No permit which contains a demolition of an existing garage will be processed without the above required certificates.
4. The property tax P.I.N. number must be written on the application.

For all new garages:

1. Two sets of drawings. This plan must contain a drawing of the design or style of the garage, the length and width of the proposed garage, all framing details including elevation (height), and the size and location of all doors and windows. (These do NOT have to be stamped architectural plans).
2. Plat of Survey that shows the exact location of the new proposed garage highlighted.
3. Electrical permit application must be filled out and will be issued when the permit is processed.
4. The tax P.I.N. number for the property must be written on the application.
5. All contractors are required to be listed on the application and licensed in the Village before a permit will be issued.
6. Requirements for FOOTINGS – all must be 12" wide, 20" deep and on all four (4) sides of the garage slab. Two #4 bars are required in footings on all new foundation work.
7. Requirement - Roof tie-down/hurricane clips – See Section R802.11 Roof tie-down and R802.11.1.3 Rafter uplift resistance of the International Residential Code.

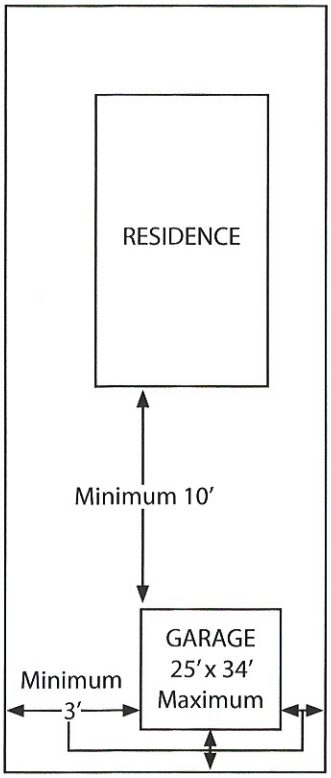

Fees:

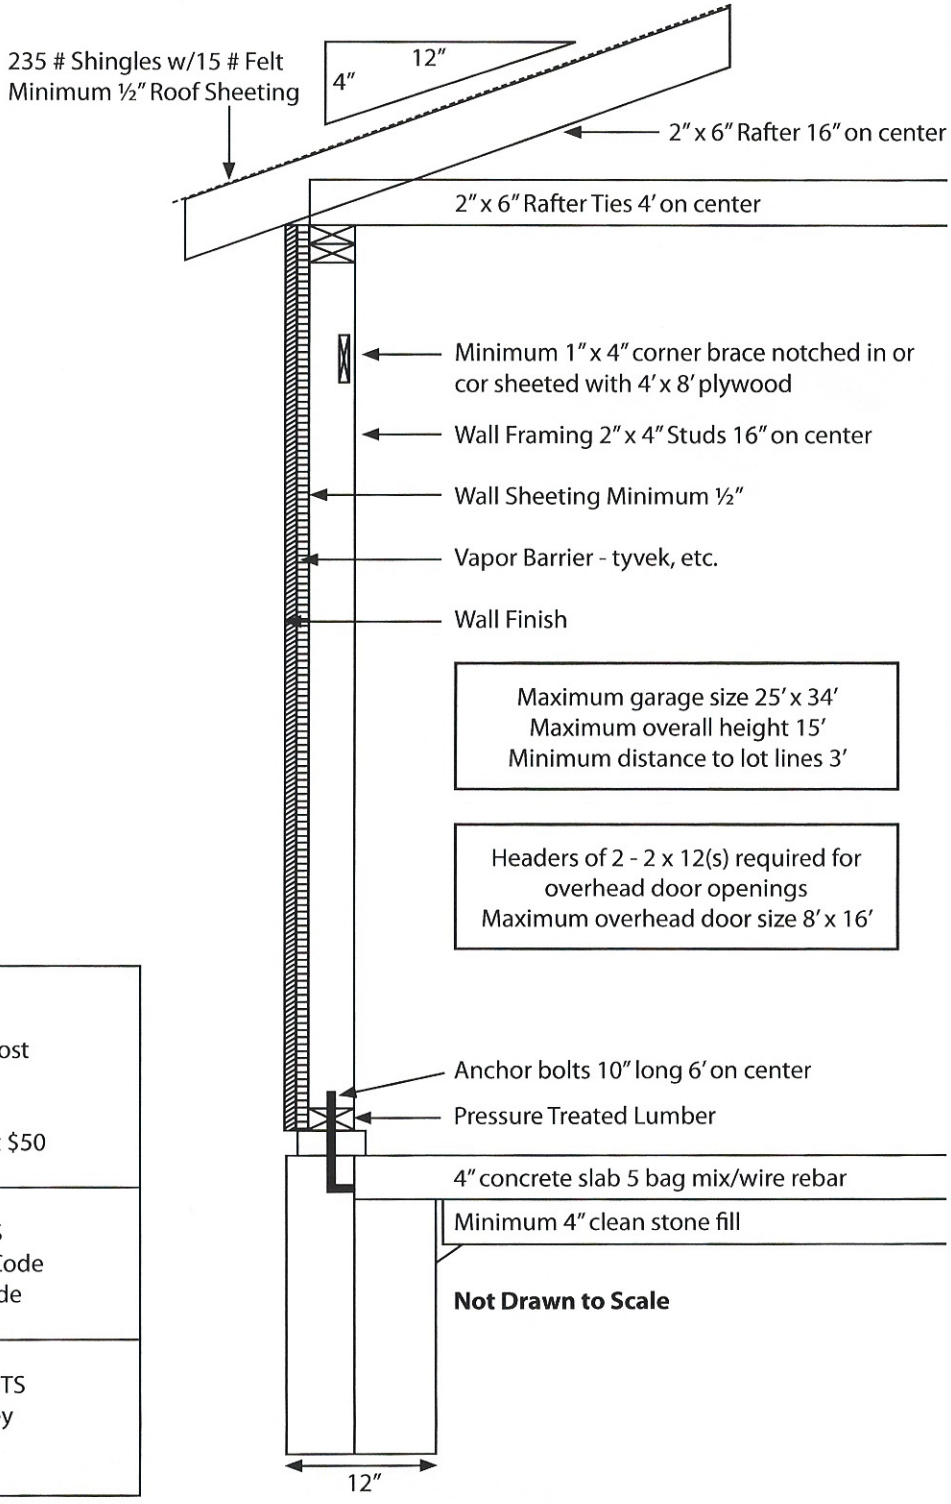

1. 1.5% of the estimated cost of the job. (Total cost of project must be listed on application).
2. $50 electrical permit.
3. $500 permit bond (Responsibility of the General Contractor).
4. $50 for each inspection. (This amount is deducted from the permit bond and the money left from the bond will be refunded when the project is complete and all inspections are passed – including the final electrical inspection).

MINIMUM STRUCTURE REQUIREMENTS - GARAGE

Sec. 5-301 Detached garages.

a) Zoning Code. All garages must be located and constructed in compliance with the provisions of the Evergreen Park Zoning Code. The regulations in this division are in addition to any zoning regulations.

b) Maximum Size. No detached garage can exceed 850 square feet in area.

c) Maximum Dimension. No detached garage can exceed 34 feet in width or 25 feet in depth.

d) Door Height. No garage door or opening can exceed 8 feet in height.

e) Garage Height. No detached garage shall exceed 15 feet in height or the height of the main building on the zoning lot, whichever is lesser, but the height of the garage may be at least 12 feet in any event.

f) Location. No detached garage shall be located closer than 10 feet to any structure. No detached garage shall be erected within 3 feet of any side yard or rear yard lot line, within 20 feet of any street right-of-way (except where access to the garage is from an alley), or in any manner that a portion of the garage extends past the front of the principal structure on the lot. A detached garage may be located closer than 10 feet to any structure if separated from such structure by construction providing fire resistance of not less than one hour.

g) Multiple Garages. Only one detached or attached garage is permitted per zoning lot except that a residence with a one car attached garage can have a detached garage not exceeding 576 square feet in area.

h) Access. All detached garages must have access from a public street or public alley.

i) Uses. A detached garage can only be used for the storage of motor vehicles, boats, trailers and other personal property of persons actually residing on the property. Rental of garage space or storage of goods for persons not residing on the property is prohibited.

j) Construction Standards. Floor construction shall be of portland cement concrete.

Sec. 5-301 Garages in multi-family residential districts.

a) Attached Garages. All attached garages in multifamily residential districts shall comply with the provisions of Sec. 5-300. All attached garages shall be constructed of solid masonry materials.

a) Detached Garages. All detached garages in multi-family residential districts shall comply with the provisions of Sec. 5-301 except that there is no maximum size or maximum width. All detached garages of greater than 816 square feet shall be constructed of solid masonry materials.
