IMPORTANT NOTICE

A permit must be obtained for all installations or alterations of electrical equipment.

A permit must be obtained before the work is started.

Permits will be issued to electrical contractors only when they are registered in conformity with the ordinances of the Village of Evergreen Park.

Applications for permit must give the location by street and number. Locations on corners will not be accepted. The street number must be correct. A person doing work at any other location than specified in the permit is in violation of the ordinance, and the records of the department are thereby confused and the furnishing of current delayed.

Application must be signed by the Registered Contractor and by the Supervising Electrician.

The inspection fee must be paid before a permit is issued. As this fee is based on the apparatus installed a correct statement of such apparatus must appear on the application.

The permit issued on this application will authorize only work here applied for. If other work is done it must be covered by additional permits.

Contractor shall not make connection to existing wiring where same is defective. In all cases contractor installing apparatus in addition to existing load shall be held responsible for any overload of service, branch mains or circuits.

When this installation is ready for current a request for current must be made on the form provided for this purpose. The request for current must in all cases, be signed by some representative of the registered contractor.

A violation of the ordinance of the Village of Evergreen Park governing the installation and alteration of electrical equipment is punishable by a fine of $100 to $5,000.

THE CURRENT ISSUE OF THE CHICAGO ELECTRICAL CODE WILL BE ENFORCED. ALL FINAL INTERPRETATIONS WILL BE THE RESPONSIBILITY OF THE VILLAGE OF EVERGREEN PARK'S ELECTRICAL INSPECTOR.
